

**Amendments to Specification:**

Please insert the following paragraph at line 18, page 3, just before the section heading of the detailed description:

Figure 12 shows circuit boards coupled by a connector, according to an embodiment of the invention.

Please insert the following paragraph before the paragraph that starts at line 17 of page 11:

Figure 12 shows a connector 51 extending between first and second circuit boards 30, 31, and providing electrical connection therebetween. Each of the contact pads 14 in contact with a circuit contact 32 of the first circuit board 30 is also in electrical contact with a respective electrical trace 20 at a first end thereof, as show and described with reference to Figures 2 and 6. The electrical traces 20 are in turn in electrical contact at their respective second ends with respective contact pads 14 that are shown in electrical contact respective circuit contacts 32 of the second circuit board 31.
